SUMMARY

Computer Science graduate with hands-on experience in full-stack web development using React.js, Spring Boot, and MySQL. Skilled in building scalable and responsive applications, implementing RESTful APIs, and collaborating in agile team environments. Passionate about writing clean, maintainable code and learning new technologies.

WORK EXPERIENCE

Full-Stack Developer Intern - Aivariant

May 2025 – Aug 2025

- Developed a full-stack Food Delivery Application using React.js, Spring Boot, and MySQL.
- Implemented JWT authentication, role-based access control, order tracking, restaurant/menu management, delivery assignment, and test-mode payment integration.
- Collaborated with a team, conducted testing using Postman, and participated in agile development cycles.
- Assisted in designing database schema and optimizing API performance for scalability and reliability.

PROJECTS

Food Delivery Application

- Full-stack web platform built with React.js, Spring Boot, and MySQL. Features include JWT authentication, role-based dashboards, order tracking, restaurant/menu management, and payment integration.
- Designed responsive frontend interfaces and optimized backend REST APIs for performance.
- Implemented logging and monitoring for key application features to facilitate easier debugging and maintenance.

EDUCATION

Bachelor of Science in Computer Science (B.Sc. CS)

Apr 2025

Model College of Science and Commerce, University of Mumbai

Kalyan, Maharashtra

CGPA: 9.67/10

Class 12 (HSC – Computer Science)

2022

New English High School and Junior College

Ambernath, Maharashtra

Class 10 (SSC)

2020

Smt. Radhikabai Meghe Vidyalaya

Airoli, Maharashtra

SKILLS

Frontend: HTML, CSS, JavaScript, React.js

Backend: Java, Spring Boot, REST APIs, JWT Authentication

Database: MySQL, SQL Queries

Tools: Git, GitHub, Postman, VS Code, MySQL Workbench, Maven Other Skills: Agile Methodologies, Problem Solving, Team Collaboration
